

Hi there! Thanks for visiting Cottage Industrialist. I hope you'll come back soon!

Here are a few words of wisdom, sage bits of advice, and handy instructions to get you on your way:

Halloween Takeout Box

instructions:

1. Print on card stock.
2. Cut the box out (use the orange lines at left as your guide).
3. Punch holes in each spot marked by a circle. This is where you'll secure your handle
4. Using a bone folder or other scoring tool, score the fold lines for the box (use the black lines at left as your guide).
5. Begin folding with the sides of the box folding up from the center (which will be the bottom of your box).
6. Fold the white box sides toward the center/inside of the box, and line up the holes you punched earlier.
7. Add a handle--ribbon, strips of paper, string--anything goes.
8. Fill and seal with tape or stickers.
